

My last vacation

I do not really know what to talk about because it has been along time I did not go to vacation. I do not even remember the last time I went to vacation. I will talk about my last trip which is the one I did to come to Canada. I traveled by plane, and I was alone, but I have a friend hear in Canada who was waiting for me at the airport. The last holiday I did not go anywhere. What I like in Canada is temperature and I can say you are paid for your work and what is dislike in Canada is the taxes this are expensive especially rents.
